Performance Criteria	As described in the relevant OS units

Keywords /Terms	Description
Core Skills/Generic	Core Skills or Generic Skills are a group of skills that are essential to
Skills	learning and working in today's world. These skills are typically needed in
	any work environment. In the context of the OS, these include
	communication related skills that are applicable to most job roles.
Description	Description gives a short summary of the unit content. This would be
	helpful to anyone searching on a database to verify that this is the
	appropriate OS they are looking for.
Function	Function is an activity necessary for achieving the key purpose of the
	sector, occupation, or area of work, which can be carried out by a person
	or a group of persons. Functions are identified through functional
	analysis and form the basis of OS.
Job role	Job role defines a unique set of functions that together form a unique
	employment opportunity in an organisation.
Knowledge and	Knowledge and Understanding are statements that together specify the
Understanding	technical, generic, professional and organisational specific knowledge
	that an individual needs in order to perform to the required standard.
N .: 10 .: 1	
National Occupational	NOS are Occupational Standards that apply uniquely in the Indian
Standards (NOS)	context.
Occupation	Occupation is a set of job roles, which perform similar/related set of
On a constitute of Change decode	functions in an industry.
Occupational Standards	OS specify the standards of performance an individual must achieve
(OS)	when carrying out a function in the workplace, together with the
	knowledge and understanding they need to meet that standard consistently. Occupational Standards are applicable both in the Indian
	and global contexts.
Organisational Context	Organisational Context includes the way the organisation is structured
Organisational Context	and how it operates, including the extent of operative knowledge
	managers have of their relevant areas of responsibility.
Performance Criteria	Performance Criteria are statements that together specify the standard
r criormance criteria	of performance required when carrying out a task.
Qualifications Pack	Qualifications Pack Code is a unique reference code that identifies a
Code	qualifications pack.
Qualifications Pack(QP)	Qualifications Pack comprises the set of OS, together with the
	educational, training and other criteria required to perform a job role. A
	Qualifications Pack is assigned a unique qualification pack code.
Scope	Scope is the set of statements specifying the range of variables that an
- 1	individual may have to deal with in carrying out the function which have
	a critical impact on the quality of performance required.
Sector	Sector is a conglomeration of different business operations having similar
	businesses and interests. It may also be defined as a distinct subset of the
	economy whose components share similar characteristics and interests.
	,

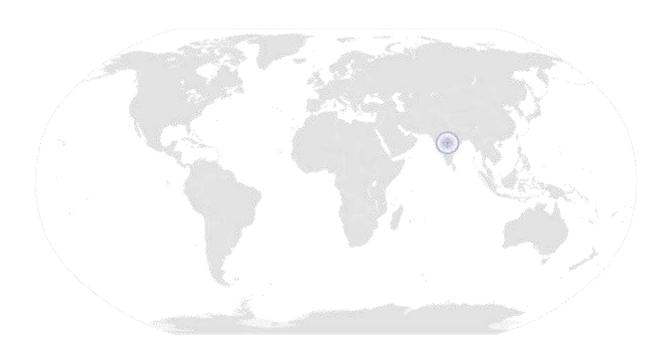

1 - 1	
Sub-functions	Sub-functions are sub-activities essential to fulfil the achieving the
	objectives of the function.
Sub-sector	Sub-sector is derived from a further breakdown based on the
	characteristics and interests of its components.
Technical Knowledge	Technical Knowledge is the specific knowledge needed to accomplish
	specific designated responsibilities.
Unit Code	Unit Code is a unique identifier for an OS unit, which can be denoted with
	'N'.
Unit Title	Unit Title gives a clear overall statement about what the incumbent
	should be able to do.
Vertical	Vertical may exist within a sub-sector representing different domain
	areas or the client industries served by the industry.

National Occupational Standards

Overview

This Occupational Standard describes the knowledge, understanding and skills required of a Medical Records and Health Information Technician to review patient records for timeliness, completeness, accuracy, and appropriateness of health data.

Unit Code	HSS/ N 5501					
Unit Title (Task)	Review patient records for completeness					
Description	This OS unit is about the Medical Records and Health Information Technician reviewing patient records for timeliness, completeness and appropriateness of health data.					
Scope	 This unit/task covers the following: Organising and evaluating the record of observations, medical or surgical interventions, and treatment outcomes for completeness and accuracy 					
Performance Criteria	Performance Criteria (PC) wrt the Scope					
Element	Performance Criteria					
	To be competent, the user/individual on the job must be able to:					
	PC1. Collect the discharge notes or previous day discharge file from the concerned nurse PC2. Assemble patients' health information PC3. Make sure that patients' initial medical charts are complete PC4. Check that all related forms are completed, properly identified and authenticated, and that all necessary information is present PC5. Communicate with physicians and other health care professionals to clarify diagnoses or to obtain additional information or complete the forms ad files when the information is missing					
	PC6. Use computer programs to perform documentation					
Knowledge and Unde						
A. Organisational Context (Knowledge of the Healthcare provider/ Organisation and its processes)	 The user/individual on the job needs to know and understand: KA1. Relevant legislation, standards, policies, and procedures followed by the provider KA2. The importance of maintaining confidentiality of the patient information KA3. How to dress appropriately as per the guidelines of the organisation KA4. How to Follow established protocols as defined in organisation's policy while keeping and maintaining the medical records 					
B Technical Knowledge	The user/individual on the job needs to know and understand:					
	 KB1. How to assemble health information KB2. How to check the related forms for required data KB3. Medical terminology and usages, covering the full range of general medical, surgical, pharmaceutical, hospital terms, medical abstracts, and abbreviations KB4. Physiology, major anatomical systems, and related disease processes KB5. How to check medical records forms and formats KB6. Correlation of laboratory test results, procedures, and treatments with diagnosis or seek the help of nurse or concerned doctor KB7. Computerised data entry and information processing systems KB8. Data collection methods for basic health care and research information 					

	KB9. How to maintain the HIMS(Hospital information management system)
Skills (S) (Optional)	
A. Core Skills/	Writing Skills
Generic Skills	The user/ individual on the job needs to know and understand how to:
	SA1. Write medical reports clearly and concisely and in a proper format
	SA2. Use effective written communication protocols
	SA3. Ensure that laboratory results are accurately documented and retained in
	accordance with existing legislation
	Reading Skills
	The user/individual on the job needs to:
	SA4. Understand written sentences and paragraphs in work related documents
	SA5. Read the lab results and medical reports provided by nurse
	Oral Communication (Listening and Speaking skills)
	The user/individual on the job needs to know and understand how to:
	SA6. Practice effective communication with colleagues and other health
	professionals while maintaining a professional attitude
	SA7. Seek out and listen to colleagues and other health professionals
	SA8. Communicate with the concerned person if the information provided or the medical records are not complete
B. Professional Skills	Decision Making
	The user/individual on the job needs to know and understand:
	SB1. How to arrange the file management area for easy access and efficiency
	SB2. Where to file documents and how to classify or code files based on notes
	accompanying the documents and classification rules and policies
	SB3. How to decide what requests merit priority and how to classify and file reports for the ease of retrieval by records staff and other personnel
	Plan and Organise
	The user/individual on the job needs to know and understand how to :
	SB4. Develop specific goals and plans to prioritise, organise, and accomplish work
	Patient Centricity
	The user/individual on the job needs to know and understand:
	SB5. How to maintain patient confidentiality
	Problem Solving
	The user/individual on the job needs to:
	SB6. Sometimes cope with a lost file by attempting to locate it by checking
	probable locations and contacting individuals likely to have it
	Analytical Thinking

The first contract of			
	The user/individual on the job needs to know and understand how to:
