

# World Skills

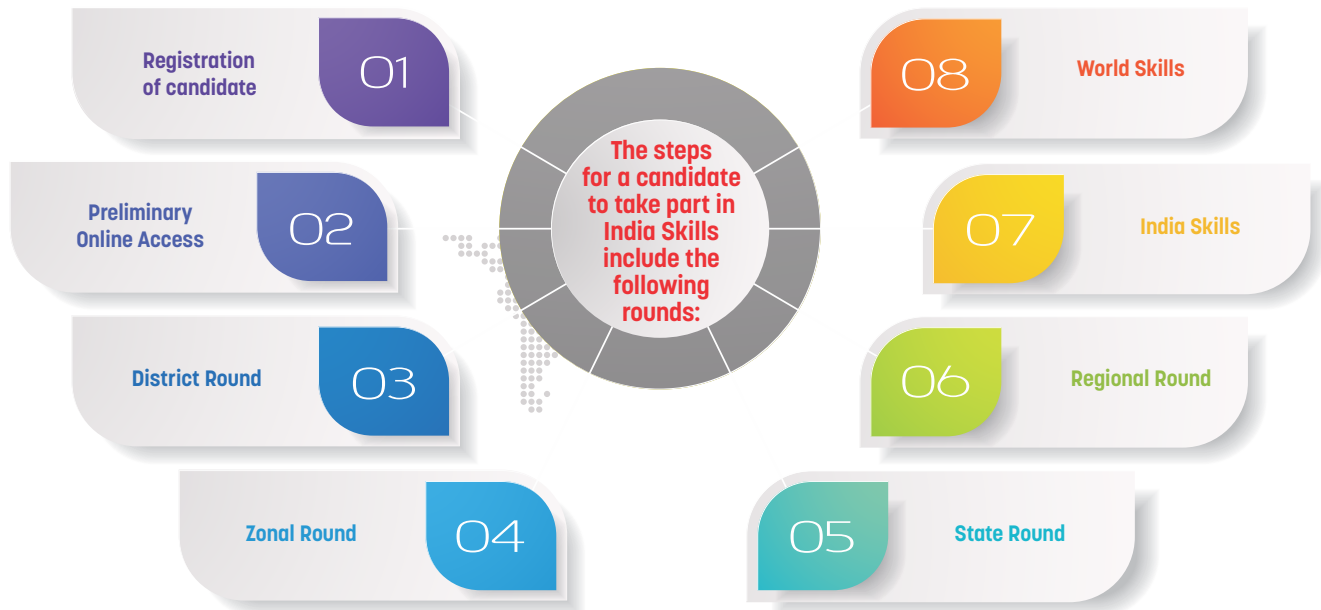

- World Skills is the biggest vocational educational skills competition that is held once in every two years.
- It is also known as the global skills hub and has been titled as the 'Skills Olympics' of the world.
- It is a competition that reflects the global industry today.
- At present the World Skills organization has 82 member organizations that reach out to two-thirds of the world's entire population.
- World Skills first started as a competition in the year 1950 and since then has seen the participation of tens and thousands of students and professionals from all over the world.
- World Skills is a movement for promoting skills, career building, skills competitions, educational training, international cooperation, development, and research.
- The competition is a global hub for skill experts and development on ongoing activities both nationally and globally.
- It is meant to bring out the essence of how important skills are in reaching economic growth and personal success.

# India Skills

- Biggest skill competition in India held every two years.
- Showcase of India's extraordinary talent from across the country with the support of State Governments, industries, and academic institutions.
- A national competition that takes place at different levels for reaching the skilled talent of India all the way to the grass-root level.
- The winners of India Skills from each category are trained rigorously under experts and get a chance to visit industries for leveling up their skills as required by the global standards.
- India Skills winners are India's representation for the World Skills competition.
- In the category of Health & Social Care, India won "Medallion of Excellence" since inception of participation in 2019 (Kazan, Russia), 2022 (Bordeaux, France)

# Road to WSC, 2024

Any candidate who is born on or after 1st January 2003 (Tentative) is eligible to take part in the competition for whichever skill they think they can perform best. The steps for a candidate to take part in India Skills include the following rounds:

**1. Registration** - This is where a candidate registers their name for India Skills and starts their journey towards the International Skills competition. A candidate must fall within the eligibility criteria for each skill. Link: [www.worldskillsindia.co.in](http://www.worldskillsindia.co.in)

**2. Preliminary online Assessment** - A common online test for all registered candidates is undertaken in the applied skill. This test is the first round for short-listing candidates for the next level of the competition. Those candidates who meet minimum marks move forward to the next level.

- 3. District** - Each state is divided into several districts from where selected candidates come together and give a test collectively for the skill that they have applied for. Since a state is divided into many districts, the chosen candidates for the same move on to the next round.
  
- 4. State** - The zonal winners come together in the state round. They compete with one another in their respective skills to get a chance at representing their state for their respective skills. There is only one state winner for each skill.
  
- 5. Regional** - India is divided into four regions - north, south, east, and west. The winners of different states of the above four categories compete with one another to be the regional winners for their respective skills. Regional winners move on to the national competition i.e India Skills.
  
- 6. India Skills** - Chosen candidates of the regional competitions for their respective skills compete with one another to be winners and Indian champions for their respective skills. It is the winner of India Skills for each category that gets the chance to represent the country at the International World Skills stage.
  
- 7. World Skills:** The Winner of India Skills Competition will represent India at World Skills Competition.

# About Health & Social Care Skill

- A health and social care offers a range of support to individual clients and their family and has a continuing responsibility to work professionally and interactively with the client in order to ensure their holistic care needs are met within the context and in association with the medical profession. The professional manages physical, psychological, social and spiritual well-being of client, family and the community, in a comprehensive manner. The care is provided through a scientific process of assessment, diagnosis, planning, delivering, and evaluating outcomes of care.
- The attributes desired for a competent professional are work organization & self-management, communication & interpersonal skills, problem solving, innovation and creativity, the ability to understand, empathize and work with clients to improve the quality of their life.
- Every competitor works in three zones namely Hospital Area and Home Care Area throughout the competition. Respective competitor spends each competition day at one area and continues until all areas are covered. The test project consists of a set of modules. The competitor at a particular area completes one set of modules on a specific day from morning to evening.
- The total time for completing the assigned tasks for the day will be between 4-5 hours per day.

## Description of project & tasks

*The Competitor has to carry out, independently, the following tasks:*

- Module One - Planning
- Module Two - Hands-on
- Module Three - communication
- Module Four - Health Education
- Module Five - Evaluation
